OWNER NAME	O-----	ANIMAL NAME	F-----
BREED	DSH	NEUTERED	YES
BIRTH DATE		AGE	11 y
GENDER	F		
IDENTIFICATION		EXAM DATE	14 SEP 2017
ACCESSION NUMBER			
OPERATOR			
EXAM DESCRIPTION	ABDOMINAL		
PERFORMING PHYSICIAN	GEMMA O DONOGHUE	REPORT DATE	14 SEP 2017

ABDOMINAL FELINE

OBSERVATIONS

Abdominal remarks Large cystic and vascular mass in right limb of pancreas with surrounding focal pancreatitis, in close association with duodenum beyond papilla. Left limb and body of pancreas normal. Liver normal and no regional lymph node enlargement. Remainder of examination unremarkable.

Conclusions Mass within right limb of pancreas, given history, compatible with an insulinoma. No evidence of metastases.
